Lynn:

As per our phone conversation on January 7, 1998, I am enclosing copies of the species description pages that were sent to us by the Division of Forestry, Fire and State Lands. Please review the listed species and make some recommendations to us regarding the selection of seedlings. We would like not only apply the seedlings to our reclamation efforts but to also help provide wildlife habitat. Due to the low cost of the seedlings, we are willing to order in 100 lots. Call me at (435) 896-2450 with your recommendations. Thanks for your assistance on this matter.
